

Circle of Care Program Laparoscopic Gastric Sleeve Procedure

The Circle of Care (CoC) program has been tailored to support you before, during and after your surgery. The cost of the program is all-inclusive, covering the following care during the initial 12 months of your treatment. The Circle of Care provides ongoing support and monitoring from a team of expert health professionals even after your first year.

Patient Liaison Support
Dietitian Sessions (4 group sessions)
Health Coaching with our Psychologists (2 individual sessions)
Exercise Program (1 group session)
Doctor's review appointments (6) to monitor your progress

The Circle of Care understands that weight loss surgery **enhances our patient's health and lifestyles. With these needs in mind we have created** a program that has been tailored especially for weight loss surgery patients.
